LLOYD PREPARATORY SCHOOL / GRADES 6–12

Tuition & Fees

2026–2027 Academic Year | A clear investment in academic excellence

Since 2009, Lloyd Preparatory School has provided individualized, academically demanding education within a small-school environment. We believe families should understand the full financial commitment before enrollment begins. This guide presents standard tuition, required fees, available program pathways, and payment policies.

01 | Core academic tuition

Grade level	Annual tuition	10-month plan	Semester tuition
Middle School · Grades 6–8	$9,950	$995 / month	$4,975
High School · Grades 9–12	$11,800	$1,180 / month	$5,900

Core tuition supports academic instruction, routine assessment, instructional guidance, and academic-progress monitoring. The installment plan divides an annual commitment into ten payments; it is not month-to-month enrollment.

02 | Required enrollment fees

Fee	Amount	What it supports
Application (non-refundable)	$150	Admissions processing and file review
Annual registration	$400	Enrollment placement and scheduling
Technology & digital resources	$600	Digital platforms, licenses, and applicable device access
Administrative & academic services	$250	Records, assessments, and academic coordination
TOTAL STANDARD FEES	$1,400	In addition to tuition

03 | Total standard annual cost

Annual cost summary	Grades 6–8	Grades 9–12
Core tuition	$9,950	$11,800
Standard required fees	$1,400	$1,400
TOTAL BEFORE AID / OPTIONAL SERVICES	$11,350	$13,200

Fees are separate from tuition installments unless an individual signed agreement specifies otherwise. These totals exclude scholarships, discounts, optional services, and separately disclosed expenses.

PROGRAMS & OPTIONAL SERVICES

Academic pathways

Tuition is determined by the instructional program in which a student is enrolled. Placement in a specialized pathway follows an academic review and consideration of the student's needs.

04 | Academic Renewal pathways

Program	Annual tuition	10-month plan
Tier 1 · Structured remediation	$13,650	$1,365 / month
Tier 2 · Intensive individualized support	$15,600–$17,550	$1,560–$1,755 / month

Tier 1 includes more sustained intervention and small-group learning support. Tier 2 may include intensive one-to-one instruction and executive-function coaching. Specialized program tuition replaces, rather than automatically supplements, standard core tuition. Applicable enrollment fees remain separate.

05 | Optional academic enhancements

Optional service	Published fee
Summer FLVS coursework supervision	$200
College Access Suite · Grades 9–12	$300
CADENCE 6™ Friday Studios	$275 / semester
Private academic coaching	$75 / hour

Optional services are subject to current availability and written approval. The College Access Suite may include application, essay, portfolio, and financial-aid preparation. Friday Studios and other in-person opportunities depend on current scheduling and instructional arrangements.

06 | Scholarships & discounts

Previously published program	Benefit / maximum
Legacy Family Discount	10% sibling tuition discount
Early Payment Discount	5% for qualifying advance payment
Founder's Equity Award	Up to $1,500
Scholar of Promise Award	$1,500–$2,500
Transition Grant	Up to $1,000

Important: These are previously published categories, not guarantees of current availability. Awards and discounts require confirmation of eligibility, available funding, applicable deadlines, and written school approval. Individualized family scholarship arrangements are not part of this standard public schedule.

Financial information

07 | Payment arrangements

Pay in full: Annual tuition may be paid in full under the terms of the enrollment agreement. Ten-month plan: Annual tuition is divided into ten scheduled installments, generally due on the first day of each month and considered late after the fifth. Semester enrollment: Students enrolling for one semester are subject to the applicable semester tuition and payment requirements before the term begins.

Administrative charge	Published amount
Late payment (after the 5th)	$25
Returned payment	$35

Previously published accepted methods: ACH, check, Zelle, and cash, subject to current school procedures. The signed enrollment agreement controls payment dates, balances, and obligations.

08 | Additional educational expenses

Core learning materials and standard digital resources are addressed through tuition and the applicable technology arrangements. Optional printed textbooks, laboratory kits, specialized supplies, and separately arranged external services may involve additional charges. Families should receive an itemized disclosure and approve applicable costs before purchase or provision.

No separate amount is published here for graduation, transcripts, external examinations, or additional devices because an approved current fee schedule for those items has not been established in the reviewed materials. Families should request written confirmation if such charges apply.

09 | Withdrawal and refunds

Written notice is required for withdrawal. Under the previously published policy, application, registration, technology, and administrative fees are non-refundable. Tuition becomes non-refundable after the third week of the semester; earlier withdrawal may qualify for a prorated tuition refund, less applicable charges. Families must review the complete signed agreement, including how these provisions interact with annual tuition commitments.

10 | Current instructional arrangements

Lloyd Preparatory School currently provides instruction virtually while planning for a physical instructional location. Families receive information about academic schedules, participation requirements, and any optional in-person services during enrollment.
